DRIVEN BY **TECHNOLOGY**

Technology is profoundly changing the human experience. Life today is faster and smarter, mirroring the technology that drives the change. At Godrej Locks, technology is the essence of who we are. Inspiring greater innovation and a deeper embrace of future possibilities, right now.

PRESENTING THE **ADVANTIS RANGE**

Created by Godrej Locks, Advantis is a range of high-tech locks that sits neatly between science and science fiction. As the name suggests, these are seriously advanced locks. Packed with almost space-age functions that are also simple to use. These locks have a high style quotient too, with their sleek elegance speaking volumes about your aesthetic sense. Simply put, Advantis brings the future of home safety onto your door.

FINGERPRINT TECHNOLOGY NOW FOR YOUR HOME.

Godrej
ADVANTIS
REVOLUTION

Side   Back   Front

360° FINGERPRINT REGISTRATION:
This mechanism is so easy to use that no matter how you place your finger in the slot, the machine will recognise your fingerprint and unlock the door.

Created by Godrej Locks, Advantis Revolution stands at the cutting-edge of home safety. Its fingerprint identification capability ensures both easy usage as well as enhanced protection. Sleek, intelligent and very secure, the Advantis Revolution aligns future science for your protection.

Advantis Revolution - Black (4967)
Also available in Gold finish (2998).

REVOLUTION

PRIVACY FUNCTION:
If the safety button is switched on, the lock can't be opened from outside by either RFID or password or fingerprint access. Only mechanical key override is possible.

ADJUSTABLE SPYCODE:
Random numbers can be added before or after the password in the presence of strangers, thereby maintaining secrecy.

ACCESS MODE:
Password: 4 to 12 digits for enhanced password strength (register up to 4 user passwords, one OTP and one master password).

EMERGENCY BATTERY:
In case the battery is completely discharged, an external 9V battery can be used to operate the lock.

BREAK-IN DAMAGE ALARM:
An alarm will go off if the password (num-lock / biometric / RFID card) is entered incorrectly 5 times in a row.

LOW BATTERY INDICATION:
A beep sound alerts you in advance to replace the battery.

AUTOLOCKING:
Eliminates the hassle of manually locking the door.

RFID CARD:
Register upto 100 cards for multiple user access.

COMPATIBILITY:
The lock is compatible with the remote and video door phone for ease of operation.

MECHANICAL KEY:
In case of an emergency, the lock can be opened with a mechanical key.

MULTI-LEVEL VOLUME CONTROL:
Adjustable volume with mute function for silent operation.

FIRE SENSOR:
Automatically unlocks the door in case of a fire i.e. when the temperature inside the house rises above 65 degree Celsius.

Lock can be integrated with remote and VDP through PCB.
(these are optional and sold separately)

SO ADVANCED,
IT GOES FROM SCIENCE
TO SCIENCE FICTION.
